

For many hundreds of years, the glorious architecture of Norwich Cathedral has been filled with the sound of beautiful music. Our choirs carry on this wonderful tradition today and music continues to draw many people to the Cathedral for choral services, concerts and recitals.

Our exciting concert programme for 2019 sees internationally renowned soloists perform alongside our Cathedral choirs, meanwhile our magnificent Cathedral organ will be played by our outstanding team of organists as well as distinguished visiting recitalists.

I hope you will come along to enjoy what is on offer and go away uplifted by the beauty of the music in this special place.
